

sustainable steel products for the modern creatures

The past few months here at These Creatures have been full of exciting news. First, we made Oprah's June "O" List! You can find a copy at newsstands this week!

Second, we would like to announce that in an attempt to broaden our full product line, we have finished designing our newest line of feeders and accessories, our "Deluxe Line"! The "Deluxe Line" includes hanging AND standing feeders for your four legged family members, both of which — just like our designer line — are raised off the ground in order to facilitate better health for your pets. This feature aids in digestion and reduces back and neck pain.

We have also launched stylish bird feeders for your wild, winged friends from the neighborhood. And we mustn't forget the new mighty and versatile leash hook! It acts beautifully as a leash hook, but can also disguise itself as an adorable coat or jewelry hook!

Our Deluxe Hanging and Standing Feeders for dogs and cats are available in three sizes and colors, and are fitted with a rubber ring for silent dining. Our powder coated finish is also weather proof, so they're perfect for indoor and outdoor feasting.

Our flagship line of designer breed-specific hanging feeders is also still available. By the end of June, we'll be adding to our collection: Rat Terrier, Miniature Schnauzer, Cavalier King Charles Spaniel, Doberman Pinscher, Australian Shepherd and Sheltie.

Thanks for keeping in touch with us here at These Creatures. We will continue to produce ergonomic, stylish and durable products for your modern creatures, and pledge to keep giving back to important creature causes.
